**Hiring Manager**

Qoria

Perth, Australia

Dear Hiring Manager,

I am writing to express my interest in the **Frontend Intern** position at Qoria (Octopus BI). As an undergraduate student pursuing a BSc in Computer Science from the University of Staffordshire with hands-on experience in frontend development and a passion for building intuitive, responsive web applications, I am excited by the opportunity to contribute to Qoria's mission of enhancing digital safety for children globally.

In my academic and personal projects, I have developed applications using **React**, **Next.js**, and **Tailwind CSS**, coupled with backend technologies like **MySQL** and **PHP**. I have created responsive, user-centric platforms such as a consultation portal for startups and a modern real estate application. These projects have honed my skills in component-based design, RESTful API integration, and agile development.

What draws me to Qoria is your strong purpose-driven culture and global impact in ensuring safe digital environments for millions of children. I resonate deeply with this mission and would be proud to apply my technical capabilities in a team that values innovation and meaningful outcomes.

I am comfortable with Git-based workflows, have a solid understanding of HTML, CSS, and JavaScript, and bring a proactive, growth-focused mindset to every project I undertake. My strong communication skills and collaborative nature make me a good fit for dynamic, cross-functional teams.

Thank you for considering my application. I would welcome the opportunity to discuss how I can support Qoria's vision as a Frontend Intern. I am available for an interview at your convenience and can be reached at [anuda.ranasinghe@gmail.com](mailto:anuda.ranasinghe@gmail.com) or +94 77 485 2747.

Sincerely,

**Anuda Ranasinghe**
